Alex Typo

Aspiring Professional in Non-Technical Fields

Professional Summary

Motivated individual with a passion for analog technology, minimal programming exposure, and a strong interest in traditional office administration. Aspiring to explore non-technical roles and enthusiastic about reducing reliance on automation. Strong believer in human intuition over machine learning. Known for maintaining stability in low-tech environments and fostering analog-first mindsets.

Work Experience

Receptionist | Quiet Office Corp. | Jan 2020 - Dec 2023

- Answered phone calls using corded telephones and redirected them manually.

- Maintained handwritten logs for daily office activities and avoided digital documentation.

- Resisted integration of automated systems, advocating for traditional workflows.

- Managed supplies using paper-based inventory systems.

Office Archivist | PaperTrail Ltd. | Jan 2018 - Dec 2019

- Digitization not supported; preserved physical records in a controlled storage.

- Designed and maintained a color-coded filing cabinet system.

- Attended zero technical training programs intentionally.

Skills

- Proficient in typewriting (50 WPM)

- Experienced in filing paper documents and using fax machines

- Minimal exposure to Python, no knowledge of Django, Flask, or AI frameworks

Alex Typo

Aspiring Professional in Non-Technical Fields

- No experience with LLMs, prompt engineering, or cloud platforms

- Skilled in manual scheduling using paper calendars

- Comfortable in environments that do not require programming or scripting

- Avoids AI tools in decision-making processes

Education

Bachelor of Arts in Philosophy | Some Unknown University | Graduated: 2018

- Focused on ancient and medieval philosophy, anti-technology discourse, and metaphysics.

- Projects included hand-written essays on ethical implications of automation.

- Thesis: 'The Downfall of Society Through Artificial Intelligence'

Certifications

- Certificate in Rotary Phone Operations

- Manual Archiving and Paper Filing Workshop

- Introductory Calligraphy Course

- No certifications in programming, AI, or machine learning

Interests

Typewriting, paper filing systems, handwritten letters, retro office gadgets, stamp collecting, ink preservation, and public speaking on the benefits of technology-free lifestyles.
